

**SAN FRANCISCO COMMUNITY COLLEGE DISTRICT
POLICY MANUAL**

Title: POLITICAL ACTIVITY	Number: 4.07
Legal Authority: California Education Code Section 88000	Page: 1 of 1

Education Code Section 88000 indicates that Section 87034 does not apply to our classified employees. Reference should be made to San Francisco Charter Section 8.311 which reads as follows:

"Active participation in city and county politics, relative to the election or appointment of public officials, by civil service employees and eligibles of the city and county, is subversive of the best interests of the merit system and, therefore, persons holding positions in the classified civil service or on eligible lists for such positions shall take no active part in such political campaigns, or in soliciting votes, or in levying, contributing or soliciting funds or support, in each case for the purpose of favoring or hindering the appointment or election of candidates for city and county offices. Violation of the provisions of this section shall be deemed an act of insubordination and considered good cause for suspension or dismissal from position or removal from eligible list."
